

Dear Friends, Have I told you, God is good? I teach on the low ropes how Shadrach, Meshach & Abednego had tremendous faith in the face of their trial. They were going to worship God whether they burned up in that furnace or God saved them. I have coined that "on your face faith", it is faith in the goodness and sovereignty of God regardless of how things work out for you personally. God provided wonderfully in 2008 and 2009 for Logan Valley and we have never had a year where we could not pay our bills. I am concerned about 2010 with only 9 groups thru May and only 10 camps this summer. We had 14 camps in 2008 and 2009. We have 2 weeks completely open, not good for summer. There are several factors resulting in this down turn, including the economy. There is also a trend in churches that does not benefit doing retreats and camps. Can I say I still believe in Getting Away to Grow Closer, our slogan for several years. I have seen how God works in people's lives at Logan Valley. I have heard the testimonies of people called to ministry and lives changed at Logan Valley. So I am asking you to join me in praying for God's provision again this year and the future. You see although Shadrach, Meshach & Abednego were going to worship God however their situation worked out, I am sure they were praying for God to

save them. We too are praying for God's provision, but we have already have learn from our trial. I believe I will serve and appreciate those coming to Logan Valley better this summer. God is sovereign and He is good regardless of what happens. But again please pray for groups to come to Logan Valley. Thank you, Dave
